ABOUT US

Star Asiya Transport and Trading established itself into to the road haulage and transporting scene at Qatar in the year 2009 with just 7 employees, a little over 6 trucks and one client. The vision has always been to service our clients' needs with utmost priority, whereby maintaining the safety and security as our overarching values. Hard work and dedication led to the expansion of the fleet to 115 Tipper-trailers, 22 Cement Tankers, 4 - Wheelloaders, 2 - Telehandlers, 2 - 10Ton Forklift, 2 - 80Ton Crane, 1-160Ton Crane, 2 - 100Ton Crane.

We are transporting more than 15,000 Tonnes of materials in a day from one point to another point across Qatar. We are providing raw materials with transportation, like Washed Sand, Backfill Materials, Sub-Base, Road-Base, Limestone, Gabbro, RCA(Recycled-Concrete Aggregate) , Wadi Stone. With a short notice, we can deliver 1000-3000 Tonnes of materials. We are committed to provide maximum support in a short notice. Star Asiya Transport and Trading has some of the most experienced drivers in the industry, which is an added benefit for on time delivery of materials. We continue with the same drive of our vision and over the time made it a habit to achieve 100 % satisfaction and commendable performance for our respected clients. Our client portfolio is over 20 companies, including the names of leading Ready-mix Concrete producers and contracting companies in Qatar.

Despite busy schedule, Health & safety has always remained an integral part of all our activities and we shall continue to care. Health & Safety was never compromised, and it reflects in the service with the help of the equipment that we use and commitment of our employees. The unique safety feature of our vehicles makes us the best transport provider in Qatar.

We are specialized in transportation of Washed Sand, Dune Sand , Gabbro, Limestone, Backfill materials, any type of rocks, Cement Tanker , Microsilica, White Cement, GGBFS, Flyash, OPC, etc. Our drivers have worked in related Q-companies abiding by high Health & Safety Rules. Also, our drivers have major Gate passes including Ras-Laffan pass

OUR FLEET

The fleet is included with all leading safety features in transport industry. All the vehicles are IVMS enabled giving the clients the added advantage of tracking their loads from point to point basis. Regular and timely maintenance ensures good and healthy life of vehicles.

Star Asiya's fleet include 115 Tipper-trailers, 22- Cement Tankers, 4 - Wheelloaders, 2 - Telehandlers, 2 - 10Ton Forklift, 2 - 80Ton Crane, 1 -160Ton Crane, 2 - 100Ton Crane.

The low mileage and age of the vehicles help us provide the best transportation solution demanded by our clients at unbeatable prices. Trucks also have certifications for safety valves, Regular and timely maintenance ensures good and healthy life of the vehicles. Our tippers have the following safety features:

- Spark Arrestors
- Easy Sheeting System
- Front facing Mirrors
- Beacon Lights
- Proper Access to body
- Brake Controls

Cranes have Chalwyn Valves added as well.

All drivers are equipped with all necessary PPEs. Cement Tankers are no less, and we have separate bulker units for each type of cement, cementitious materials like GGBFS, OPC, Micro silica, Cement Dust, etc. Safety features include:

- 2x Pressure relief Valves
- Extendible hand rails with anchor points for access to loading batches
- Hatch Protection
- Diesel compressor for easy offloading
- Safety Valve Certification
- Storz coupling on the outlets and delivery hose
- Anti whip lines on the delivery hose
- Beacon Lights

To avoid any accidents, Safety Guards are installed in the compressors. Apart from these, Cement Tanker drivers also carry with them Harness Belts along with other PPEs

OUR EMPLOYEES

Our drivers play an important role in the performance of our company and for their betterment and further improvement; regular toolbox safety talks and training are arranged every week. They are constantly monitored and rated as per their performance. Drivers have also been trained on Defensive Driving and their fitness is also measured with total health check-ups at the clinics with certificate from the doctor. A strict working hour policy is maintained for the workforce to enable them make time for self-development and avoid fatigue. As a company, we believe it would encourage the workforce to give their best at work while they have appropriate rest.
